

VACUUM WAR

A VR shooter game with vacuum cleaner based alternative controller

1. Use your vacuum cleaner with the roller head to collect resource on the ground . They will be your ammo!
(It can be mine/snow/ink/any liquid... depending on game art style)

2. Switch the head! Change to attack mode from collect mode!

← This can also be an mode with another head.

3. Aim and fire with the crevice tool as the muzzle! Remember to switch back to collect mode if you are out of ammo.
